Junior English
Student Constitution Review Guide

In your groups, examine the student association constitution you have been given, keeping the following questions in mind as you read. Write notes on the constitutions themselves as you see fit and then answer the questions on this sheet.

1. In what ways does this constitution fulfill the list of characteristics of a good SA constitution that we created?

2. In what ways does it fail to meet the list of characteristics?

3. In what ways does this constitution do the things that we decided a good SA constitution should do?

4. In what ways does it fail to do the things we decided were important?

5. In examining the constitution you've been given, what additional qualities have you found that might be important for an SA constitution to have and what additional roles have you found that an SA constitution might need to fill?
